

10X Genomics new developments for Single Cell and Spatial Multiomics. Biology insights for 2022 and beyond

Presentación

Día: 01/06/2022

Hora: 13:00h

Lugar: Sala de Juntas IIS INCLIVA o videoconferencia
Plataforma Zoom IIS INCLIVA

Regístrate: <https://form.typeform.com/to/s4ebEYi8>

10X Genomics has been leading single cell transcriptomics research for the last few years, and to face new challenges for a deeper understanding of biology at true resolution, now they are expanding capabilities and applications in two directions: single cell and spatial multiomics.

Come and join us to find out how you can expand your discoveries by applying these new applications and developments from 10X Genomics for 2022 and beyond!
