

MyPath

An EU-funded project
developing and implementing
innovative digital patient-centred
care for cancer patients

50%

of the European population
will develop cancer in their lifetime

Every year
in Europe

>3.7
MILLION

people are diagnosed
with cancer

while

1.9
MILLION

people die
of cancer

Are patients with cancer
receiving the best possible care?

People with cancer often face
substantial psychological,
physical, and social problems

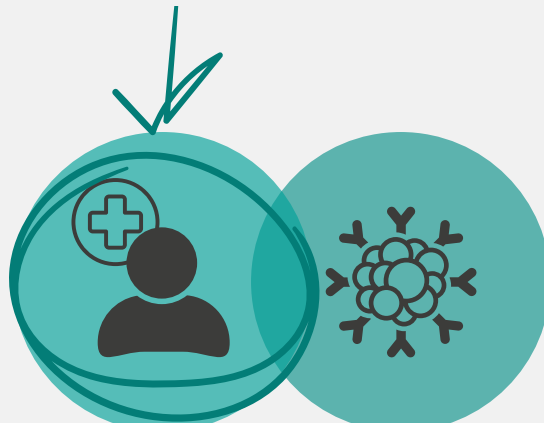

resulting from the disease, its
treatment, or its late effects

MyPath

recognises the need for change

The project aims to integrate
patient-centred care
with tumour-centred care

What is patient-centred care?

Focus on
individual needs
and quality of life

Personalised
care pathways

Active patient
involvement in shared
decision-making

MyPath

will develop an innovative digital
solution for patient-centred care

✓ real-time
communication of
symptoms and care
preferences

✓ custom-made care and
treatment pathways

... and test it thoroughly
by implementing the tool and
workflow in clinics across Europe
